For emergency reasons, (primarily weather) it is sometimes necessary to close school before normal dismissal time. We are aware of the difficulties that can be caused by an abrupt cancellation. Therefore, school will not be cancelled unless a significant safety risk exists. If this should be necessary, the decision to close will generally be made by noon and will be announced on the radio stations listed above.

It is vital that parents listen to the radio in inclement weather and establish in advance an emergency plan for early closings. Please be sure to teach these emergency procedures to your child.
